
Winter Storms, Recovery Effort Limitations, the Frightening World of Documentation, and Actually Useful Federal Guides

Michael Baris

Emergency Services Coordinator

Department of Neighborhood Services

Hello and Welcome!

- **Michael Baris, Emergency Services Coordinator**
- **Top three most humbling experiences:**
 1. Golf
 2. Being the first emergency manager of an agency
 3. Disaster recovery operations
 - Contractor Availability
 - Maintenance Records
 - Public Assistance Program Policy Guide (PAPPG)

Contractor Availability, or the Lack Thereof

- DR-4683, 44 counties eligible for Public Assistance (PA)
 - Includes all agencies within: cities, school districts, water districts, etc.
- **Three topics and one big issue:**
 1. Large amount of work statewide
 2. A limited number of contactors
 3. Less than 1 year before the next storm season
 - Stabilizing vulnerable areas becomes difficult

The solution we have is a solution that is not helpful to all agencies; ready-to-go contracts.

Maintenance Records

- FEMA requests maintenance records to prove active use
- FEMA has **no definition** for what constitutes a 'maintenance record'

Public Assistance Program Policy Guide (PAPPG)

- The guiding document for all things PA related.
- It is worth your time.

The Applicant needs to provide:

- Estimated debris quantities by type (required for all uncompleted work);
- Photographs of debris impacts, if available;
- Location of temporary reduction sites and permanent disposal sites (required);
- Copies of permits for reduction and disposal sites (required);
- Quantities of debris removed, reduced, disposed, and recycled (by type) with load tickets to support quantities (required if contracted, FEMA reviews a representative sample);
- Tower logs (required if contracted, FEMA reviews a representative sample);
- Documentation to substantiate legal responsibility (required);
- The basis of the immediate threat determination (required);
- Location of debris (required); and
- Documentation to substantiate the debris was deposited by the incident and was not pre-existing (e.g., waterway soundings that show pre-and post-incident levels) (required).

Public Assistance Program and Policy Guide

Version 4, Effective June 1, 2020

(FP 104-009-2)
