

Channel Islands Harbor Dredging Project

July 2025 Update

Recent Dredging Data Quantity of Sand Removed

Year	Volume
1990-91	1,430,000 cubic yards
1992-93	1,112,000 cubic yards
1994-95	875,000 cubic yards
1996-97	1,338,000 cubic yards
1997-98	1,609,000 cubic yards (interim/emergency dredging)
1998-99	1,117,000 cubic yards
2000-01	1,236,000 cubic yards
2002-03	2,062,000 cubic yards
2004-05	2,141,000 cubic yards
2006-07	1,171,000 cubic yards
2008-09	2,198,000 cubic yards
2010-11	969,000 cubic yards
2012-13	600,000 cubic yards
2014-15	2,369,000 cubic yards
2016-17	1,623,000 cubic yards
2018-19	1,600,000 cubic yards
2020-21	1,930,000 cubic yards
2022-23	2,400,000 cubic yards
2024-25	885,000 cubic yards

**Current
Conditions
Dredge Pond
7-15-25**

**Current
Conditions
Hueneme Beach
7-16-25**

The Corps will
return this
October for an off
cycle dredging
project

The goal is to dredge an
additional 1.4 million cubic
yards

What we need to see in the FY 2026 Budget or Workplan

Project	FY 2025 President's Budget	FY 2025 House Committee	FY 2025 Senate Committee	FY 2025 Workplan	FY 2026 Budget or Workplan	Purpose of Funding
Channel Islands Harbor	4,216,000	4,216,000	4,216,000	12,316,000	13,200,000	Maintenance Dredging

- Typically, we request \$8,000,000 a year to cover the cost of dredging 2.54 million cubic yards of sediment every other year
- Due to an increase in dredging costs, the project is now expected to cost \$26 million a cycle, which is up from \$20 million a cycle.
